## Objective

I am a student with good academic record and Knowledge **of Software Testing**. I am familiar with concept of **SDLC** and **STLC**. I am having good command on skill that I mentioned in my resume. I am having **excellent communication skill** to interact with team and I am good team player. I am looking for a job where I can implement my knowledge and give my contribution in company growth.

## Technical Skills

|                         |   |
|-------------------------|---|
| <b>Languages Known:</b> | Core Java, Basic SQL                              |
| <b>Skills In:</b>       | Selenium WebDriver, Basic Rest API, TestNG, Maven |
| <b>Tools:</b>           | Jira, Postman, Git, GitHub                        |
| <b>IDE:</b>             | Eclipse, NetBeans                                 |

## Projects:

### A. Automated log in page:

Created Maven Project, installed all dependencies in pom file. Automated log in page using selenium WebDriver, for scripting used java and written test cases in TestNG. It is data driven framework and data stored in property file. For better understanding included extent report.

Git: <https://github.com/Mayura304/SampleWork>

Used Skills: Selenium WebDriver, Java, TestNG, Functional Testing

### B. Automated Hashtag job apply page:

Implemented data driven framework for job apply module. Implemented page object module. Pages and testcases classes separated by creating different packages. Pages functionality written in pages package and with respect to page class written test cases in testscases packages. Validated all functionality like present input fields, labels and buttons. For better understanding included extent report.

Git: <https://github.com/Mayura304/HashtagProjectAutomationScript>

Used Skills: Selenium WebDriver, Java, TestNG, Functional Testing

## Education Details

|             |                   |      |             |
|-------------|-------------------|------|-------------|
| BE-IT       | SPPU, Pune        | 2019 | 6.66 (CGPA) |
| Diploma(IT) | MSBTE, Mumbai     | 2016 | 75.35%      |
| SSC (10th)  | Maharashtra Board | 2013 | 77.45%      |

## Summary:

- Knowledge on **Agile methodology** for projects development.
- Very Good understanding of **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)**.
- Understanding of smoke testing, sanity testing, functional testing, regression testing.
- Strong knowledge of various testing methodologies, test processes, test automation techniques, test design principles and agile project implementation life cycle.
- Good understanding of **Core Java Programming** and **OOP's concepts**.
- Good understanding in creating, modifying, and enhancing both **manual Test cases** and Automation Test Scripts designing in Selenium Web Driver.
- Knowledge of developing the scripts using **TestNG** annotations.
- Have good understanding of **Data Driven framework**.
- Knowledge of Web service and **API Testing** using **Rest API and POSTMAN**.
- Understanding of executing **basic SQL** commands for data validation.
- Always ready to learn new technics for improving my technical skills.

## Known Languages:

English, Hindi, Marathi
